How grades count on the 4.0 scale

A+	A	A-	B+	B	B-	C+	C	C-	D+	D	D-	F
4.0	4.0	3.7	3.3	3.0	2.7	2.3	2.0	1.7	1.3	1.0	0.7	0.0

Common weighted bonuses: Honors +0.5 · AP / IB +1.0 · Dual credit +1.0 · none for an F
Schools set their own scales and bonuses, so check yours with your counselor.

Why your GPA matters

A quick guide for students and families.

What it is

Your GPA (grade point average) turns your letter grades into one number. Each grade earns points, and the points are averaged by credits, so a full-year class counts more than a half-year one.

Weighted and unweighted

Unweighted GPA counts every class the same and tops out at 4.0. Weighted GPA adds a bonus for harder classes like Honors and AP, so it can go above 4.0. Colleges often look at both.

Who looks at it

Colleges, many scholarships, honor societies and some summer programs ask for your GPA. Students who want to play a sport in college also need a minimum GPA in their core classes.

Every semester counts

Your GPA is an average of all your semesters, so each new one can move it. Strong grades this term still help, and they count most when you have fewer semesters behind you.

Smart habits

- Check your GPA after every grading period.
- Know which of your classes are weighted.
- Talk to your counselor before dropping a class.
- Keep a copy of each report card.
